Wild Earth Animal Essences

Overview

This incredible set of essences from Daniel Mapel bring to us the power and wisdom of wild animals. The essences are made by invoking the vibrational imprint and energy of the animal in a ceremonial process of attunement that takes place in the wild. No animals are captured or harmed in the making of these essences.

Daniel Mapel

The essences deeply connect us with the power and healing of the magnificent creatures with which we share this planet.

Incredibly grounding, they reconnect us to our bodies, to our animal selves and to the majesty and empowerment this brings. For Shamanic work they provide an invaluable tool for ceremonial processes and direct connection with a power animal. For healing work in general they give a most solid and tangible connection with our innate wisdom, strength and spirit.

There are several ways of choosing essences, either consciously, by selecting from the descriptions, or by using one of several methods to access the unconscious or intuitive mind eg. dowsing or muscle testing.

Another very easy way of doing this is with the Wild Earth Animal Cards, a powerful tool for intuitive prescribing. Daniels beautiful animal images are easy to use and demonstrate again and again how we are intuitively drawn to the essences we need for our healing. They are ideal for children and people who find it difficult to talk about their problems.

These Essences are available either as a ready to take 30ml bottle for normal use, or for practitioners, as a 30ml stock concentrate.

We would like to thank Daniel for allowing us to use the Wild Earth logo and animal photos reproduced here, which are all copyright of Daniel Mapel.

SHARING LOVE ESSENCES

The Sharing Love Essences emerged as this next set immediately after my workshop at Healthlines in 2009. It had been a magical weekend for me of sharing deeply with old and new friends, and I was feeling so grateful and privileged to be living a life where I am given the opportunity to share love in so many ways with so many. Out of that awareness and gratitude the Sharing Love Essences swiftly arose -- within moments I "got it". I knew that the the Sharing Love Essences would be the perfect complement to my previous work. And they speak so deeply to me because after all, it seems to me that what we are here to do with one another is quite simple at its most basic level: Share Love!

So the Sharing Love Essences provide powerful support for feeling and expressing love in many of the most common areas of life where love is expressed and shared. It begins, of course, with self-love, and for that the essence is Loving Yourself. As the Dalai Lama said, "Genuine love should first be directed at oneself – if we do not love ourselves, how can we love others?" So Loving Yourself helps us to deepen our love and respect for ourselves, with the support of Swan, Dolphin, Peacock, Wolf Pup, and Fawn, and is a powerful formula for those who do not know how to love themselves fully. And from there the set expands and supports us in many of the ways that we experience and share love with others: Loving Relationship, Loving Parent, Loving Child, Loving Service, Loving Compassion and Sharing Love.
